Hear Her

If your loved one shares that something doesn't feel right, here are some talking points to help with the conversation.

During Pregnancy:

- It's hard to tell what's normal with everything that's changing right now. It's better to check if there's anything you are worried about.
- It's important that we share this information with your doctor and make sure everything is okay.
- I am here for you. Let's talk to a healthcare provider to get you the care you need.

After Pregnancy:

- It's normal to feel tired and have some pain after giving birth, but you know your body best. If something is worrying you, you should talk to your doctor.
- Although your new baby needs a lot of attention and care, it's important to take care of yourself, too.
- You are not alone. I hear you. Let's talk to a healthcare provider to get you the care you need.
